## CareFlow Electronic Student Health Records Adds 6 Members to Clinician Advisory Board

Board responsible for advising on product and company direction

West Chester, PA January 3<sup>rd</sup>, 2013: CareFlow Electronic Student Health Records has added six members to its 2014 Clinician Advisory Board. The diverse group is made up of Theresa Sardella, Diane Sneider, Adam Hernandez, Arianne Missimer, Lauren Bushbeck, and Rachel Michener.

The goal of the C.A.B. is to work with the CareFlow executive team and provide advice using the board's diverse clinical experiences. Discussions around product direction, new features, and improved usability will all be on this year's agenda.

### **Theresa Sardella**

Theresa Sardella (MS, SANE, RN) is the Director of Health and Wellness Services at the Westtown School, located in West Chester, PA. She is a graduate of Neumann University and Philadelphia College of Osteopathic Medicine. Westtown is a private Day/ Boarding school K-12 with over 600 domestic and international students. Theresa has extensive background in emergency medicine, critical care, treatment after sexual assault, forensic medicine and as a legal consultant . She has worked in the hospital, ambulatory, occupational health and school settings. Upon transition into the school setting in 2011 Theresa saw the need for an electronic medical record. Having experienced the benefits of such at the hospital, she chose Careflow EMR and has not looked back!

### **Diane Sneider**

Diane Sneider (MEd, BSN, RN) is the Director of Health Services at The Cambridge School of Weston (CSW), located in Weston, MA. She is a graduate of both Syracuse University and Boston University. CSW is a private Day/Boarding High School with domestic and international students. Diane has extensive knowledge and experiences in medicine, surgery, psychiatry, orthopedics, urology, cardiology and neurology. She has worked in the hospital, ambulatory, public health and school settings. As a leader and a teacher Diane has implemented the CareFlow EMR for nursing, school counseling and athletic training.

### **Adam Hernandez**

Adam Hernandez (MS, ATC, LAT) is the Director of Sports Medicine at Tabor Academy, located in Marion, MA. Prior to joining the Tabor faculty, Adam worked with the US National Luge team, the Boston College Football team, and was a fellow in the New Hampshire Musculoskeletal Institute Integrated Clinical Sports Medicine Residency. In these positions Adam worked with a number of EMR platforms. He is excited to be working with CareFlow and provide leadership as they continue to advance their platform to meet the unique needs of its clients and has seen first hand how CareFlow can dramatically improve his practice and thus the quality of care for his patients.

### **Arianne Missimer**

Dr. Missimer has spent the past 12 years in the fitness and nutrition industry, specializing in performance enhancement and injury prevention through proper assessment and training methods. She has trained a diverse group of clientele, including recreational and competitive athletes of all levels, to improve their overall performance through proper functional training and conditioning. Dr. Missimer is on the CareFlow advisory board to help bridge the gap between EMR's in use outside of schools and school-based EMR's.

### **Rachel Michener**

Rachel (RN, BSN) graduated from Liberty University. She started in the oncology department at Moses Cone Hospital in North Carolina, where she worked for 6 months. She then worked in the neurology trauma ICU for a year at Lynchburg General Hospital in VA. Currently she is working for Einstein Montgomery Campus in the general ICU. She is also back in school working on her masters in anesthesia (CRNA) at La Salle University. Rachel also lends her hospital-based experience to CareFlow in order to keep the product on par with sophisticated and comprehensive hospital-based systems.

### **Lauren Bushbeck**

Lauren Bushbeck (RN, BSN) graduated from West Chester University in May 2010 Cum Laude. She since has been employed as a RN at Thomas Jefferson University Hospital where she specializes in intermediate care of adolescent through adult and geriatric patients of various illnesses. She is a leader and teacher on her unit for the patient navigation pathway of the hospital; teaching coworkers, patients, and family members how to properly use the system to optimize care and patient outcomes. Lauren brings an overall healthcare perspective to CareFlow and helps to keep CareFlow abreast of what is new in healthcare technology and nursing practices.

CareFlow is an Electronic Student Health Record Solution focused on providing a simple to use, but comprehensive tool for healthcare management in schools. CareFlow includes a health center module, recurring medication administration area, online parent health form, athletic

trainer module, and counselor module. CareFlow EMR will allow you to run your health center more efficiently, provide more thorough care, and assure parents and students that the health center is just as advanced as other areas of the school.
