## CareFlow Electronic Student Health Records Adds Nurse to Team

Clinical experience adds great value to CareFlow team

West Chester, PA December 28<sup>th</sup>, 2013: CareFlow Electronic Student Health Records is excited to announce that we have added Christy Wade, R.N., M.S.N. to our team.

Christy Wade (BSN, MSN) is a Clinical Analyst with a background of over 10 years in pediatric nursing and education. She is a graduate of both Texas Woman's University and The University of Texas Medical Branch. She has led several change and implementation teams for various EMR programs in the hospital and clinic environments. A strong interest in the growing EMR field and a desire to continue to broaden her IT skills has led her to this position. Christy recently worked with a large private day school in Houston, Texas to revise and further implement the school's full use of the CareFlow EMR.

CareFlow is an Electronic Student Health Record Solution focused on providing a simple to use, but comprehensive tool for healthcare management in schools. CareFlow includes a health center module, recurring medication administration area, online parent health form, athletic trainer module, and counselor module. CareFlow EMR will allow you to run your health center more efficiently, provide more thorough care, and assure parents and students that the health center is just as advanced as other areas of the school. Learn more about CareFlow at [www.careflowemr.com](http://www.careflowemr.com).
