

**CareFlow, LLC completes asset acquisition of GleeWorks Online Forms and Student Health Records
Deal allows GleeWorks customers to seamlessly transition to CareFlow SHR**

May 4, 2014

CareFlow, LLC recently completed an asset acquisition of GleeWorks Health Records, a Nightingale Group LLC offering. Nightingale, a privately held company founded in 2003 and headquartered in Canton, MA, has provided healthcare and online registration software to private schools in the United States.

Under the agreement, CareFlow will transition GleeWorks customers to CareFlow's Student Health Records system by July 31st, 2014. In order to ease the burden of the transition, CareFlow and GleeWorks team members will immediately build the client sites and begin the transfer of data. CareFlow will provide training based on the individual needs of the GleeWorks customer base.

This acquisition exemplifies CareFlow's growth plan and dedication to serving the health needs of schools, their students, and the parent community.

CareFlow is a student health records solution that is easy-to-learn, easy-to-deploy, and is delivered at the industry's lowest total cost of ownership. It automates and streamlines the enrollment process for both parents and school personnel, saving time and improving data accuracy. As a secure, web-based application, you can easily access and share information confidentially. Our mobile access capabilities ensure school nurses, athletic trainers, coaches, teachers, chaperones, and administrators can document or access student visits, treatments and medication administration, and stay up-to-date and in-synch regarding each student's medical condition.
